History and Notes:	<p>Caller states he got some Roundup 365 Ready to Use on his thumb while spraying the week before Christmas in December 2015. He immediately washed it off with the hose. Caller states his nail raised up, turned brown, and liquid leaches from under the nail. Caller thinks the chemical ate away the nail. Over the past couple months, caller has washed his skin with various soaps and has been soaking in hydrogen peroxide. His wife noted the skin on his hands is very dry. The caller is very concerned about cancer risk. MRPC discussed the product toxicity. The symptoms do not correspond with the expected response to the product. The man has an appointment with his PMD tomorrow. MRPC advised to have MD contact MRPC with any questions.</p>
